

New wellbeing program for children with DLD!

NIHR | Applied Research Collaboration
Wessex

Ethics Code: 22-115

Hi, I'm Annabel, and I want to introduce you to '**PLUTO**' – an online program to improve the social and emotional wellbeing of children with **Developmental Language Disorder (DLD)**.

I am looking to hear from parents of children between **6 and 11 years** who:

- 1) Have a **diagnosis of DLD**, and
- 2) Would like help with their child's **social** and **emotional skills** (for example, emotion regulation, self-esteem or anxiety)

What does it involve?

- Taking part in the research will involve contact with the research team for **up to 24 weeks**.
- During this time, you will have access to an online, flexible program, which lasts up to **12 weeks**, requiring around **45 minutes** of work, per week.
- You will also receive a short weekly 'check-in' **phone call** to give feedback.
- The program involves **weekly activities**, and visual aids that you will either work on yourself, or with your child.
- Most of your time during the 24 weeks will be completing weekly or fortnightly questionnaires.

Want to know more?

If you think you might be interested in taking part, or have any questions, please don't hesitate to get in contact. You can contact the team at the below email address:

DLD.research@bath.ac.uk

Alternatively you can contact Dr. Charlotte Dack (supervisor; cnd31@bath.ac.uk) or myself, Annabel Burnley (ab3535@bath.ac.uk).
